Various notices and papers are pinned to a glass partition on the right side of the control room. The notices include safety instructions, maintenance schedules, and other operational information. Some of the visible text includes 'Safety', 'Maintenance', and 'Operational'. The papers are arranged in a somewhat organized manner, with some overlapping.

TEST: 28.1

ProGage

Click a shift: Mach 1 - set 1.000
Phenom LS - set 0.000
F0 00 - uncalibrated value

Problem: Gauge has not been transferred to ProGage

Step 1: Verify the code in the gauge locker and the computer are connected. (by the color of the display)

Step 2: Press the yellow reset button located on the back and then power it back on for 30 seconds (30 sec. for work)

Step 3: On the Computer screen:

1. Hit the 'Make' button and you see 'MODE: CONTINUOUS'
2. Hit the 'Clear' button to return to the main display
3. Hit the 'Report' button. Hit the 'Report' until you see 'DIGABLE PROFLING'
4. Hit the 'Clear' button to return to the main display

For next step refer to the user manual

Step 4: On the Computer screen:

1. Click on 'ProGage' button
2. Click on 'ProGage' button
3. Click on 'ProGage' button
4. Click on 'ProGage' button
5. Click on 'ProGage' button
6. Click on 'ProGage' button
7. Click on 'ProGage' button
8. Click on 'ProGage' button
9. Click on 'ProGage' button
10. Click on 'ProGage' button

Click a shift: Mach 1 - set 1.000
